

NON-FIRE RATED DOOR SYSTEMS

Model CS3000

Vertical Coiling Service Counter Shutter

McKEON coiling counter shutters are available up to 28' wide by 12' high. The CS3000 is designed and manufactured to accommodate both interior and exterior applications. They provide maximum security and require very little head room and side room. These units are available in either prime painted galvanized steel, stainless steel or they can be powder coat finished to any desired color. All coiling counter shutters are available in manual push-up, manual hand crank or motor operated operation.

CS3000

NON-FIRE RATED DOOR SYSTEMS

Service & Security Doors

McKEON offers a wide selection of non-fire rated custom service doors. These assemblies can be manufactured in literally any size or for any function including insulated and sound rated, with either solid or perforated slats. All of these slat configurations are available in 16, 18, 20 or 22 gauge. Finishes include McKEON galvanized standard sterling gray, custom powder coat of color as selected, stainless steel No. 4 polish or No. 8 mirror finish, anodized or powder-coat aluminum. Service doors can be oriented to any custom-fit scenario – vertical coiling, side acting, side coiling or horizontal coiling.
